

Remarks

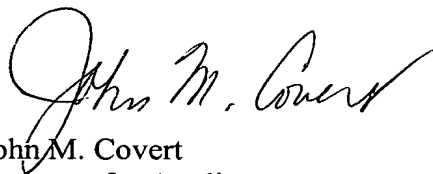

This amendment does not add new matter. The amendment merely corrects a formal matter without changing the scope of the claims.

Scheme 3 at page 23 of the specification has been amended by replacing the term "DCI" with --CDI-- at the last step of the reaction scheme. Support for this amendment can be found in the specification as originally filed.

The reagent used at the last step of Scheme 3 is carbonyl diimidazole. See, for example, paragraphs [0158] and [0169] at pages 43 and 48, respectively, of the specification as filed. Carbonyl diimidazole is correctly abbreviated as CDI, not DCI. Schemes 5 and 6 at pages 24 and 25 of the specification also support the amendment. Thus, no new matter has been added.

Reconsideration of this application and entry of the above Amendment is respectfully requested.

Respectfully submitted,
STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.
